

GERMÁN COCCA

FULL STACK DEVELOPER

BRIEF

I'm a full stack developer (react, node, express, mongo and postgresql) fluent in english. At the moment I'm learning about react native, typescript, jest and react testing library. I consider myself curious by nature. I like to learn new stuff constantly and understand how things work, and from that knowledge build tools that are useful for other people.

DATOS PERSONALES

Tel: +54 9 11 2690 0730

Mail: coccagerman@gmail.com
